## Citizenship

## **Key points about Dominica citizenship by investment**

Dominica citizenship by investment programme has been in place since 1993. The conditions for applicants are set out in [the Citizenship Act and its amendments](#).

## 2 investment options

Dominica citizenship by investment programme offers two options to choose from:

### 1. Contribution to a government fund – \$200,000+

Investors transfer money to the Economic Diversification Fund. The contributions are used to build schools and sports stadiums, renovate hospitals, and develop tourism, agriculture, and information technology.

### 2. Purchase of real estate – \$200,000+

Investors acquire shares in government-approved properties. The real estate can be rented out to generate additional income. After 3 years, the property may be sold without losing citizenship.

## Second passport in 6+ months

The investor receives a passport within 6+ months without the need to visit Dominica.

## Passports for 4 generations

A spouse, children, parents, and grandparents may be included in one citizenship application.

## 5 benefits of Dominica citizenship

Dominica citizenship grants the right to:

- travel visa-free to over 130 countries;
- do business internationally;
- optimise taxes.

1

### **Visa-free travel to 130+ countries**

The Dominica passport allows visa-free entry to the Schengen Area for up to 90 days within any 180-day period. In China and Singapore, citizens may stay visa-free for up to 30 days.

2

### **2–5% annual return**

CBI properties can be rented out with an average annual return of 5%, depending on the type, location, and management. Resale is allowed after 3 years – the shortest holding period in the Caribbean.

3

### **Tax optimisation**

The personal income tax rate in Dominica ranges from 15 to 35%. Tax residents do not pay tax on dividends, interest or royalties.

To become a tax resident of Dominica, one must live in the country for more than 183 days per year or receive income from sources in the country, for example, from renting out real estate.

4

### **Right to reside in Dominica**

Investors with a Dominica passport can enter the country at any time, even when the borders are closed. This allows creating a safe plan B for cases of unpredictable circumstances in the home country.

5

### **Keeping your first passport**

Investors obtaining Dominica citizenship are not required to renounce their first nationality, allowing them to combine the benefits of both passports.
